TSI Analog Color Dome Camera

WWW.MYTRANSITSOLUTIONS.COM

Key Product Features

- High resolution color cameras with 800 TV Lines of resolution
- Rugged polycarbonate camera housings to protect against vandalism
- Ideal for bus and rail Installations
- Supports both day and night operation
- Extended operating temperatures
- Easy installation

The TSI Analog Color Dome Camera is versatile, reliable, and ideal for interior bus and rail installations. With excellent video quality during both day and night conditions, this dome camera is well equipped for surveillance recording when-ever and where-ever the need arises.

The TSI Analog Color Dome Camera product line offers a full range of lens sizes - from 2.5mm to 16.0mm - thereby allowing for a combination of wide and narrow angle views necessary to provide complete coverage of your bus or railcar.

Additional features include a vandal-resistant polycarbonate housing, a resolution of 800 TV Lines with 976(H) x 494(V) effective pixels,

internal synchronization, and a minimum illumination of 0.1 Lux at F2.0.

The TSI Analog Color Dome Camera - when combined with TSI's wide range of recorders, monitors, and other accessories - provides a comprehensive digital video surveillance solution that helps transit agencies protect passengers, protect property, and reduce frivolous lawsuits.
